Rabbit Class 29.6.2020

Hello Rabbits, hasn't the sunshine been lovely this week after all that rain! Here are some more 'Castle' activities for you to do with your grown-ups at home this week. Each activity should take no more than 20 minutes and spread them out over the whole week. You can always finish the activity or have another go at it later on in the week if you wish.

Remember to have fun!

Remember to send photos and videos to me via Class Dojo!

Here are some more activities for you to try this week:

Castles

1. What did a knight wear? Have a look at some pictures of knights and talk about what you can see.

2. Turn yourself into a knight - you could draw or paint a picture or make a collage of you wearing your suit of armour. You could even be riding your horse like the knights in the pictures.
3. Play a dress the knight game <https://www.ictgames.com/mobilePage/knight/index.html>
4. Design and make a shield for a knight - you could draw or paint your design. Here are some ideas to help you.

Cinderella

5. Write a list - Can you write a list of all the jobs Cinderella might have to do for her wicked step mother and the ugly sisters? For example...cook, dust, mop, feed the hens. Don't forget to use your Fred Talk to help you spell each word. How many different jobs can you think of?
6. Draw a story map for the main events in the Cinderella story. You can use the pictures on our class page to help you.
7. Use your story map to help you retell the story to a grown-up. Can you remember what happened at the beginning, middle and end of the story?

Phonics

8. Play the Snakes and Ladders tricky word games. Phase 2 is the easiest game, Phase 5 is the hardest. See resources.
9. Silly questions - Can you match the pictures to the silly questions? Can you make up and write your own silly questions? See resources.
10. Play the 'Match Cards' game on the Phonics Bloom website.
<https://www.phonicsbloom.com/uk/game/match-cards?phase=2>

Maths

11. Capacity Problem Solving
You will need 3 or 4 different shaped and sized containers (plastic cups, plastic bottles, pots and pans) like you used last week. Choose a smaller container as your measuring cup e.g. a plastic beaker. The King wants the container that holds the most water. Use your measuring cup to fill up each container. Make sure you fill the measuring cup to the top each time and count how many you pour in to each container to fill it up.
 - Which container holds the most water?
 - Which container holds the least water?
 - Which container will the King want?
 - Can you put the containers in order from the one that holds the most to the one that holds the least amount of water?
12. Play an adding and taking away game on the Topmarks website.
<https://www.topmarks.co.uk/addition/addition-to-10>
<https://www.topmarks.co.uk/subtraction/subtraction-to-10>
13. 1 more or less - Spread out your 0-20 number cards so you can't see the numbers. Pick a number and shout it out. Tell your grown-up what is one more and one less than your number. If you get it right you can keep the number. How many numbers can you collect?

PE

14. Go on a mountain adventure with Andy!
<https://www.bbc.co.uk/iplayer/episode/p06tmnbs/andys-wild-workouts-series-1-3-mountains>
15. PE with Joe Wicks! He has some great videos to watch on YouTube!

SEAL

16. Talk to your grown-ups at home about what things we could do to be kind to others? Why do you think people are unkind sometimes?

Please remember to upload photos/videos of you completing the activities or of your completed work onto the 'Student Profile' section of Class Dojo for me to see!
